

NAME: PHAM TRAN LAN PHUONG

POSITION: MSc, Research Assistant, Climate Change Institute (CCI).

Address: 18 Ung Van Khiem, Dong Xuyen Ward, Long Xuyen City, Vietnam

Email: ptlphuong@gmail.com, **Cell phone:** +84 975 060 144

EDUCATION:

Master in International Development Studies, 2016	Water governance	Chulalongkorn University, Thailand
BSc, English Teacher Education, 2010	English Teaching	An Giang University, Vietnam

PROFESSIONAL EXPERIENCE:

I have achieved Master degree in urban water governance at Chulalongkorn University. This provides me a key to work as a research assistant at Research Center for Rural Development, An Giang University. In addition, I participated in projects as the following:

1. Engage in the project titled “Food loss in the Catfish (Pangasius) Value Chain of the Mekong River Basin” funded by ACIAR from 2021 – 2024.
2. Involve in the project namely “Vulnerability of Floods and Landslide in the Vietnamese Mekong Delta” sponsored by a small grant of Utrecht University 2021-2022.
3. Engage in the project titled “Mapping inundation areas for sustainable drainage and waterlogging management in the context of climate change: A case study in urban areas of Long Xuyen City, An Giang Province, Vietnam’s Mekong Delta” funded by EPIC Asia-Pacific seed grant 2021.
4. Take part in the project titled “Financial resilience among women-owned MSMEs in an ethnically diverse population amidst the Covid-19 pandemic. Case studies in the border areas of An Giang Province, the Vietnamese Mekong Delta” funded by AIPP.
5. Participate in the project namely “WASH and Action Campaign Against COVID-19 for Khmer Schools” funded by LIN from November 2020 to November 2021.
6. Join in the project titled “Scaling up a traditional rice-shrimp based agro-ecological farming system in the Mekong Delta” sponsored by the Rufford Foundation in 2020.
7. Engage in the project “Exploring Gendered Knowledge and Inclusiveness in Community Resilience for Flooding Disaster. Case studies in Can Tho City (Vietnam) and Cebu City (Philippines)” funded by Asia-Pacific Network for Global Change Research from 2019 to 2021.
8. Take part in a Doubt Project namely “Dealing with floods: village responses in An Giang Province” in 2020.
9. Participate in the project “Empowering minority women in rural water supply project in the Vietnam’s Mekong Delta through gender awareness workshops and women’s leadership training (1/12/2018 – 30/11/2019), funded by LIN.
10. Engage in the project “Assessment of traditional rice-based farming systems for adaptation to climate change in the Mekong Delta” in 2018.

11. Participate in the project “Domestic drinking water supply (hand pumps provision) and ethnic women’s participation and empowerment in water management”, funded by Direct Aid Program (DAP) of Australian Government in 2017.
12. Take part in the project “Water governance of minority communities in the Mekong Delta” funded by Partnerships for Enhanced Engagement in Research (PEER) and USAID from 2016 to 2017.
13. Teach a subject, namely “Community-based Natural Resources Management” at An Giang University in 2017

INTERNATIONAL EXPERIENCE:

1. Receive a certificate of completion online training on Understanding Agribusiness, Value Chains and Consumers in Global Food Systems on June 2022.
2. Achieve a certificate of completion online training on Introduction to Embedded Research Translation on August 2020.
3. Receive a certificate of completion online training on Gender Analysis in Research and Application on August 2020.
4. Participate in international workshop “Water Governance, Climate Change and Food Security in Minority Communities, Viet Nam” at An Giang University on 21-22 September 2018.
5. Engage in workshop on “GCRF Living Deltas Hub – Proposal Development Workshop” at An Giang University on March 22, 2018.
6. Participate in the “Forum on Promoting Sustainable Agriculture in the Mekong Sub-Region towards Food Security” held on 6-7 November 2017 at An Giang University, Vietnam.
7. Take part in training namely “Writing a Research Proposal and Development Project Evaluation” at An Giang University on July 15, 2017.
8. Engage in the workshop “Building Resilience to Multi-source Flooding in Southeast/South Asia through a Technology-informed Community-based approach” (REMATCH) at An Giang University on 18-28/02/2017 & 19-23/5/2017.
9. Participate in “Workshop of Training and Sharing Experience about Biodiversity Preservation in the Mekong Region” from May 23rd to 25th 2016, funded by the Luc Hoffman Institute. It allowed me to learn more about floating rice preservation in Vinh Phuoc Commune, Tri Ton District, An Giang Province and Tram Chim National Park biodiversity in Dong Thap Province.
10. Participate in training about dam impacts to local people along the Mekong River in Thailand, Lao PDR and China funded by Chulalongkorn University from February 22nd to February 28th 2016.
11. Participate in training about sufficiency economy in Thailand funded by University of British Colombia from December 7th to December 11th 2015.
12. Engage in the training about Rasi Salai dam impacts for Thai local people’s agricultural irrigation funded by Chulalongkorn University in Thailand from November 12th to November 15th 2015.
